

DIRECTIONS FOR 2023 ENTRY FORMS

1. After I have received your sanction agreement, I will send the attached entry form. Please note that the form has been changed and simplified for 2023.
2. You will need to have your web person create the online entries to match this form.
3. Do not include the classes in each division by weight, height, or age as in previous years.
4. Classes will just be as open, novice, masters, and teen.
5. You will need to have the web person put asterisks by all required fields just like on the entry form sent to you.
6. The online entry needs to be created so that the competitor cannot pay (check out) unless all required fields are completed.
7. This is so the competitor includes their height, weight, and age as part of the process and then you as promoter will have the information which I need for checking in and creating the files for the show. It should also make it easier for competitors to mark the class(es) that they want to compete in.
8. As before, the online signature of the athlete is a legal binding agreement.
9. Please complete the information at the bottom and include with the online entries so athletes know how to communicate with you as promoter.
10. Finally, be sure to send me the draft of your flyer/poster for approval before publishing.
11. The goal is to simplify the process for everyone.
